

Book Fair eWallet

A safe, cashless payment option for students.

> What?

Book Fair eWallet is a secure **digital payment option** for your school's Book Fair.

> Who?

Families create a free account for their **student** and set a spending limit. Extended family and friends can also contribute funds to a student's eWallet.

> Where?

Students use their eWallets to shop at the **in-school Book Fair**. After the Fair, the cardholder can use any unspent balance at The Scholastic Store Online.

> When?

Families can set up eWallets as early as **three weeks prior to and through the last day** of your in-school Fair. Funds are **immediately available** to shop the Fair.

> Why?

eWallet offers **secure, contactless checkout**. Plus, families don't always have cash on hand to give their kids (and even if they do, it can be easy for kids to misplace!).

> How?

Since eWallet is already enabled for your Book Fair, all you have to do is **spread the word!** Share your homepage link to let everyone know Book Fair eWallet is available at your school. Send home informational flyers, share the news on social media, and find resources in the Fair Files section of your Toolkit. Search keyword: **EWALLET**

Log in to your Toolkit to learn more about Book Fair eWallet!
